

Weber Automotive

Currently, Weber Automotive ranks among the most technologically advanced companies in the global automotive supplier industry. We have more than 1500 skilled and highly motivated employees at seven production sites in Germany, Hungary and the US. We produce drive components for passenger, commercial and recreational vehicles on behalf of major manufacturers. We specialise in machining engine and drive components and assembling complete drive systems.

For our joboffer in Auburn Hills, Detroit MI we are looking for you as

Material Handler (m/f)

Your Tasks

Material Handlers accept and disburse all shipments into and out of the company being precise and accurate with responsibility for internal material flow. They will receive all shipments into the company and prepare all shipments from the company with care and accuracy. This position is responsible for insuring that all internal material flow is on time and in the right place.

Essential Duties and Responsibilities

- Organize and movement of goods received or shipped
- Report all pertinent information, including problems, delays, availability to the immediate logistics supervisor
- Relate all pertinent information to all departments to conduct business
- Communicate with other employees regarding related material issues
- Maintain inventory of all parts, raw materials and packaging on the line
- Provide production material at the line on time, so there is continuous production
- Remove finished product from the line and off-load deliveries to the warehouse
- Adhere to work regulations, accident prevention regulations, environmental regulations and OSHA/MIOSHA laws
- Continuous improvement of the business environment
- Comply with all Weber Automotive Employee Conduct and Work Rules; Safety rules and Employee Handbook
- Perform other duties as assigned

Required Knowledge and Experience

The ideal candidate will have the following skills and abilities:

- High school diploma or GED. Related vocational courses in manufacturing a plus

- Minimum 2 years of job related manufacturing experience
- Strong attention to detail
- Good problem-solving abilities
- Possess excellent communication skills
- Ability to function in a team based environment
- Maintain high ethical work standards
- Dependable, reliable, and punctual
- Complete job duties with a high percentage of accuracy
- Self-motivated with ability to work under minimal supervision
- SAP knowledge preferred but not required
- Must have good organizational skills and ability to multi-task
- Use time and skills in an efficient manner and have a responsible attitude
